GALDA PRIME

PART TWO

BY

JASON WELCH

The black Prince surfaces into a rocky cavern where there are two submarines birthed at the concrete loading bay .They cruise past submarines and the crew Come out on Deck and walk along the curved surface to put the Gang plank down.

Officers and guests are greeted by COMMISSIONER MILES and STENTON RELL of the KALDOR police force as they walk across the gank plank onto the concrete surface .

COMMISSIONER MILES Consider yourselves our guests until the survey team is returned .

They walk over the large loading bay as a supervoc enters from the left with a Platoon of d-class V-O-C robots .

COMMISSIONER MILES if your crew would like to help sv21 and his team who are in charge of unloading your cargo of rutons .

they alight the travel tube that whisks them in four directions around Mega City up four levels and out over high-rise blocks underneath the domed canopy .

STENTON RELL If you look above, the canopy represents the different areas of mega city .

COMMISSIONER MILES The bronze zone is for the cubs and the silver zone is for the wolves .

RELL Golden zone is for the SENATORS AND SENIOR PERSONNEL.

COMMISSIONER MILES Fortunately the cubs are told they're not likely to get to the golden zone .

HOWARD PICKLES [LEMON JUMPER CREAM SLACKS]
well that's very civilized I'll mention it to the shadow cabinet of KEIR STALMER .

They disembark the travel tube onto a high walkway above the arcade .

The purple zone is for sports sex and recreation, this part of the PURPLE ZONE is the ARCADE but it's strictly for adults .

HOWARD PICKLES [LEMON JUMPER CREAM SLACKS] So this is the Leisure and Recreation area of the purples Zone.

CORPORAL GREEN Can we get unpacks before we go down there? It's been a long sea voyage .

COMMISSIONER MILES Oh please do.

They follow RELL along the high walkway above the large chamber. From there they have a bird's eye view of people engaging in leisure activities far down below .

COMMISSIONER MILES I'll show you to your quarters after your full tour of MEGA CITY.

HOWARD PICKLES[LEMON JUMPER CREAM SLACKS] how many people are in MEGA CITY.

STENTON RELL 300 million give or take , I've got the exact count at CENTRAL and can track every man jack of them throughout their stay .

Two ZEBRA soldiers Terrance and Phillip move up the narrow gantry to be nearer STENTON RELL and get a better view of the tour .They leave the gantry and walk to a travel tube which whisks them in four directions out of one block through a perspex tube to the next block.

Far below they can see a cultivated garden paradise and then the travel tube deposits them into the RED BLOCK .

COMMISSIONER MILES This is the red zone and this is where we do all our gardening .

HOWARD PICKLES[YELLOW JUMPER CREAM SLACKS] Do you

have genetically modified plants on mega city .

COMMISSIONER MILES Top of the class young man we have perfected a form of gene splicing for plant life .We found gardening as totally necessary for human life .

Terrence climbs up a tree and picks an apple .

TERRANCE It looks and tastes like a golden delicious .

HOWARD PICKLES[YELLOW JUMPER CREAM SLACKS] So all your cultivation is done in the red zone is that right commissioner miles .

COMMISSIONER MILES That's right, including all the weats grains and pulses which are then transported via conveyor belts to the black zone to be turned into pastries and bread .

CORPORAL GREEN You don't say that's COMPLETED IN INDUSTRIAL OVENS .

COMMISSIONER MILES That's right and we're DENTRASSI meat is coated with a light oil and a special mix of 13 spices .

STENTON RELL They sell very well and are very popular amongst the adults of the silver zone .

PHILLIP Hello we left our survey team out on that large plateau where we surfaced and we really must go to fetch them .

CORPORAL GREEN Well that's NICE . Dr Goodfellow is missing a good tour here .

CAPTAIN CHAMBERS I hope he's found something to stimulate his synapses on his survey of the plateau .

COMMISSIONER MILES Oh that's quite alright captain I'll send a team out .

They follow Commissioner Miles through a large group of young people in red boiler suits with the national insurance number enblazened in white letters on their back .

COMMISSIONER MILES James, can you get a team together and go to the Schwarzkopf plateau where the away team for the black Prince submarine have gone .

CAPTAIN ROGER CORWIN if you could please bring back the president of global chemicals dr goodfellow and my first officer Skip Carmichael .

JAMES GARDNER wE'VE JUST FINISHED THE WEADING OF THE Rhododendron bush COMMISSIONER .

They go over to a travel tube that whisks them in four directions out of the block and through a perspex tube . Far below they can see a tropical paradise and then into the silver habitation block.

STENTON RELL I'm putting you In Cyprus corners luxury accommodation for our guests.

COMMISSIONER MILES And you'll be assigned a temporary national insurance number which can be used throughout mega city .

STENTON RELL Consider yourself at home you have unrestricted access to the whole of mega city .

HOWARD PICKLES[YELLOW JUMPER CREAM SLACKS]And how

is this marvelous feat of engineering constructed?

STENTON RELL Well the VOC ROBOT doesn't need wages or complain about working on Sunday .

STENTON RELL Half of our labor force is now v-o-c robots.

COMMISSIONER MILES And with an ever expanding galactic federation we're hoping to utilize the v-o-c robot to colonize other worlds .

James Gardner is leading the team assigned the duty to find Dr Goodfellow and Skip Carmichael and shows a laminated map of that region Neither river and mountain area

JAMES GARDNER We're ready to leave can give me a rough idea whether you're away team are .

COMMISSIONER MILES uses his risk communicator to call Wilma Deering , who's enjoying the delights of the purple zone .

WILLMA are you free to give Dr Goodfellow a tour of the city.

WILMA DEERING How long before the good doctor gets to the mega city commissioner .

STENTON RELL James Garner says he should be able to find them within the hour and bring them back in a company hovercraft .

WILMA DEERING Commissioner Miles you know this is my recreation period.

COMMISSIONER MILES Yes it's very sorry Wilma I need you to boost the ratings of the show and this is going out to the

entire galactic federation .

WILMA DEERING I'll finish with my cellular renovation and aerobic class and be with you within the hour .

COMMISSIONER MILES Thank you very much Wilma give him the full tour and then bring him along to Cyprus corners to join the rest of his crew .

Commissioner miles finishes the tour of mega city and shows the zebra squad officers Terrence and Philip and the crew of the black Prince submarine to cypress corners.

COMMISSIONER MILES we send all our guests to Cyprus corners it's one of the luxury accommodation blocks of MEGA CITY.

STENTON RELL it's even got a jacuzzi

CORPORAL GREEN well mix jacuzzis can be very stimulating so I'm told.

He gets a call on his wrisk communicator asking for the representative of the black Prince submarine to report to the executive council of mega city .

COMMISSIONER MILES With this gentleman I'll see you again at the hearing .

STENTON RELL And once you've unpacked I'll bring you to the golden zone we're only the high council is allowed .

COMMISSIONER MILES And if afterwards you'd like to file a report we can send it to the bronze zone for the cubs to have a look .

STENTON RELL It's all good education for them .

Later on a travel tube deposits COMMISSIONER MILES and STENTON RELL at ground level of Cyprus corners , where They walk through a throng of citizens enjoying their leisure time and take a lift up to the residency .
They're greeted at the apartment door by CAPTAIN CORWIN who walks over to the bay window where he can see a panoramic view of MEGA CITY .
CAPTAIN CORWIN We have an appointment with the high council .
STENTON RELL And we've got an escort to take Howard pickles and Terence and Phillips to the purple zone .
COMMISSIONER MILES V34 can take these men to the purple zone .
HOWARD PICKLES EXCELLENT.
COMMISSIONER MILES Here are your temporary RESIDENCY LICENSES.
STENTON RELL The rest of you will be taking a lift down to the car park .
From the flat opposite Dr Goodfellow and Peter Elgin emerge .
CORPORAL GREEN Did you enjoy your survey of the uncultivated land near where the submarine emerged?
DR GOODFELLOW Very much it'll boost my standing with the science institute but there wasn't anything that outstanding on the plateau .
COMMISSIONER MILES We're taking a ground car to the car to the golden zone .
They march down the white corridor to the blue and pink lift and descend down to ground level .
They alight two cars with a clear plastic canopy and take their seats .
STENTON RELL The pre-programmed flight plan will take us there in 20 minutes so strap yourself in .
The bay doors roll up and the two cars leave taking the central road out of Cyprus corners with the red Dome on the left and the blue factory dome's on the right .
DR GOODFELLOW I notice the similar design of Cyprus corners to some of our own habitats .
COMMISSIONER MILES That's right they were the first to be constructed when the people of KALDOR found this M-CLASS PLANET.

STENTON RELL But since the company developed the VOC robots all construction is now done by them in that factory to your right .
CAPTAIN CHAMBERS That's the blue dome to our right I presume .
COMMISSIONER MILES there PREFABRICATED SHELLS are taken on conveyor belt to their location.
STENTON RELL they now have a metal base and metal frame and I fitted together on site and the utilities such as water and electricity plug straight in .
COMMISSIONER MILES The new buildings are much easier to build though they're not quite a spectacular as Cyprus corners .
DR GOODFELLOW I will mention that to the shadow cabinet when I get back .
They drive past the two large semi circles Made of the lattice like frame and into a dense forrest
PETER ELGIN I NOTICE THAT THE PROTECTIVE CANOPY IS NOW DARK WITH SPOT LIGHTS .
STENTON RELL It's late evening now and the large canopy has to simulate a 24-hour cycle .
ADJUDICATOR SLOAN We illuminate half the city, to give all 300 million residence a 24 hour cycle .
The forrest opens out into an expanse of grassland with walls of GOLDEN DOME ahead of them .
Bulkhead doors rise up for them and they park in a Bay filled with similar vehicles .The doors of the vehicle rise and they clamber out and follow the officers over to a wall mounted INTERCOM then into a travel tube.
They come out into the high council chamber and walk along a wide ramp along a mauve tiled carpet to an ornamental fountain where a group of VOC robots are serving elite members of mega city from a refreshment kiosk .They walk through a walkway and go through double doors to a conference room where members of the high council are seated at an oblong table chaired by PRESIDENT VANESSA BELLAMY of the galactic federation .
PRESIDENT VANESSA BELLAMY Finally our guests from the black Prince submarine arrived .
DR GOODFELLOW I'll have an amazing report to send to the science institute when we get back .
PRESIDENT VANESSA BELLAMY This is first master largo of our research department .

LAGO uses a remote control to activate a monitor screen behind them.
CASTAN LAGO What you're seeing in now the images from the asylum in the Mojave desert .
On the monitor the crew and high council members observe PROFESSOR ZAROV starting his process of changing two rutons that look like giant squid into rabbit and a CAT .
PETER ELGIN I sent you this evidence in the spirit of cooperation after ZAROV escaped with his laboritory.
CAPTAIN ROGER CORWIN We tracked him down to his power base on the PHAROH ISLANDS from where he made a deal with the US DEPARTMENT OF DEFENSE and became a technician became an ambassador and working for us .
PRESIDENT VANESSA BELAMY And so the PHARAOH ISLANDS are top secret just when the GALACTIC FEDERATION needs that research data .
CASTAN LAGO Your cargo of rutons has been sent to a new facility that we're building 400 miles to the west of mega city
The image on the monitor is replaces by a dessert region with a large biodome, with two fields and a block house in the middle .
CAPTAIN ROGER CORWIN If you can just explain why we need to find BRIGHT and VILMIO
CASTAN LAGO Our plan was to use the zarov technique to clone DENTRASSI, highly prized livestock to feed a growing population on mega city .
CAPTAIN CHAMBERS THOSE RUTONS WHERE REGRESSED TO THERE NATURAL FORM AND ARE INTELLIGENT ANIMALS .
PRESIDENT VANESSA BELLAMY So you see we have to have the research data from the Pharaoh Islands and the only way we could do this was to send BRIGHT and VILMIO on the mission
CASTAN LAGO We're waiting for this vital research to complete the processing facility .
PRESIDENT VANESSA BELLAMY Any if our business interests are going to continue you must find BRIGHT and VILMIO .
CASTAN LAGO In the meantime you can accompany CASTAN LAGO to our new DELTA FACILITY ..
PRESIDENT VANESSA BELLAMY This session of the high council is closed .
STENTON RELL I'll take you back to cypress corners where you can collect the rest of your party who are enjoying the delights of the purple zone .

THEY GET UP FROM THE OBLONG TABLE AND FOLLOW THE HIGH COUNCIL MEMBERS INTO THE WAITING ROOM .
CAPTAIN ROGER CORWIN I noticed some areas of the city which were off limits to us and if I'm to make favorable reports I must understand them.
RELL I can give you a tour of our restricted areas just before you leave .

The next day Stinson RELL takes a travel tube to Cyprus corners and walks through the shopping center then takes an elevator up to the apartment .He uses a wall mounted intercom and enters the communal Lounge to call on commander CORWIN.

They come out of there apartments

RELL You'll be taking ground cars to the new dentrasi processing factory if you'd like to follow me we're going to the basement with a ground cars are Stationed

DR GOODFELLOW more of your ground cars .You know i was thinking of banning the car and replacing them with rolling roads for new towns I'm designing

RELL we'll be joining the convoy to go to the delta fasility with the cargo .

CAPTAIN CHAMBERS Officer RELL I'm going to have to protest .

HOWARD PICKLES Those rutons are in our custody and I hear they're going to be used for animal experimentation

CAPTAIN CHAMBERS You're going to force them to turn into DENTRASI ending up on the dinner table of mega City

RELL Have you tried DENTRASI meat it really is very good .

CAPTAIN CHAMBERS well that's not the point really is it .

HOWARD PICKLES although they're not British citizens They mimicked young people they killed at the Inferno Club .

PETER ELGIN I hear the good doctor has the results of studies carried out while they were in our charge on the Black Prince submarine .

CAPTAIN CHAMBERS when we regressed them back to there natural state they've been communicating and using arcade games between them .

HOWARD PICKLES It would be a shame for them to end up as DENTRASI and sold in fast food restaurants .

CAPTAIN CHAMBERS Add their telepathic ability .

RELL I'm sorry captain but my orders are to take them to the DELTA INSTALLATION

DR GOODFELLOW GENTLEMEN PLEASE DON'T ARGUE .PETER can you explain this

PETER ELGIN We were eager for you to take them off our hands at the time and get an alliance. we did not ask you what you were going to do with them.

DR GOODFELLOW if I can show you some of the results of the networking they've been doing while they've been in the cargo hold and ask you not to turn them into DENTRASI

CAPTAIN CHAMBERS we've got a full crew of men here I believe me if we wanted to complain we could do so in the strongest of terms.

RELL Alright as postpone the shipments till we see results of your findings But you'll have to take this up with a high council .

ELGIN ALRIGHT THEN

RELL well let's go back to Cyprus corners and you can try some DENTRASSI meat it's covered in 13 herbs and spices And comes with french fries and a fizzy drink

TILL NEXT TIME
